Dear Parents and Carers,

Re: First Aid Training - Year 7

I hope this letter finds you well.

First aid is an invaluable skill, and its importance cannot be overstated in today's world. Whether in a home, workplace, or public space, knowing basic first aid can be the difference between life and death. At St Peter's Collegiate Academy, we believe that equipping our students with these essential skills not only empowers them to care for others but also helps them build confidence in themselves. We are committed to ensuring our students are well-prepared to step up and take action in times of need, both within our academy and in the wider community.

With this in mind, we are excited to announce that Safeaid Services will be delivering a one-hour assembly to our Year 7 students on **Friday 26 September**. This assembly will introduce students to basic first aid skills, including what to do in emergencies, such as performing CPR and aiding someone who is choking. Our aim is for every student to leave this session equipped with the foundational knowledge required to potentially save a life.

This is a vital part of our academy's mission to not only educate but to prepare our students to serve and support those around them. By learning first aid, students will develop a sense of responsibility and resilience, both for their own wellbeing and that of the wider community.

If you have any questions about the training, please contact me at rwalker@stpetersacademy.org.uk.

Thank you for your continued support.

Mr R Walker
Assistant Principal: Personal Development
