9. Offsite visits and events
10. Storage of medication
11. Illnesses and allergies
12. Consent
13. Monitoring and review

Statement of intent

St Peter's Collegiate Academy is committed to providing emergency first aid provision in order to deal with accidents and incidents affecting staff, students and visitors. The arrangements within this policy are based on the results of a suitable and sufficient risk assessment carried out by the academy in regard to all staff, students and visitors.

The academy will take every reasonable precaution to ensure the safety and wellbeing of all staff, students and visitors.

This policy aims to:

- Ensure that the academy has adequate, safe and effective first aid provision for every student, member of staff and visitor to be well looked after in the event of any illness, accident or injury, no matter how major or minor.
- Ensure that staff and students are aware of the procedures in the event of any illness, accident or injury.
- Ensure that medicines are only administered at the academy when express permission has been granted for this.
- Ensure that all medicines are appropriately stored.
- Promote effective infection control.

Nothing in this policy will affect the ability of any person to contact the emergency services in the event of a medical emergency. For the avoidance of doubt, staff should dial 999 in the event of a medical emergency before implementing the terms of this policy and make clear arrangements for liaison with ambulance services on the academy site.

Legal framework

This policy has due regard to legislation and statutory guidance, including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- The Health and Safety (First Aid) Regulations 1981
- The Road Vehicles (Construction and Use) Regulations 1986
- The Management of Health and Safety at Work Regulations 1999
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- Updated DfE 'Supporting children and young people with medical conditions and allergy'
- DfE (2019) 'Automated external defibrillators (AEDs)'
- DfE (2023) 'Statutory framework for the early years foundation stage'
- DfE (2023) 'Automated external defibrillators (AEDs): a guide for maintained schools and academies'

The policy is implemented in conjunction with the following academy policies:

- Health and Safety Policy
- Administering Medication Policy
- Infection Control Policy
- Supporting Students with Medical Conditions Policy
- Records Management Policy
- Behavioural Policy
- Child Protection and Safeguarding Policy
- Lone Working Policy
- Educational Visits and School Trips Policy
- DfE (2023) 'Automated external defibrillators (AEDs): a guide for maintained schools and academies'

Roles and responsibilities

The governing board is responsible for:

- The overarching development and implementation of this policy and all corresponding procedures.
- Ensuring that the relevant risk assessments, and assessments of the first aid needs of the academy specifically, have been conducted.
- Ensuring that there is a sufficient number of appointed first aiders within the academy based upon these assessments.
- Ensuring that there are procedures and arrangements in place for first aid during off-site or out-of-hours activities, e.g. educational visits or parents' evenings.
- Ensuring that insurance arrangements provide full cover for any potential claims arising from actions of staff acting within the scope of their employment.

- Ensuring that appropriate and sufficient first aid training is provided for staff, and ensuring that processes are in place to validate that staff who have undertaken training have sufficient understanding, confidence and expertise in carrying out first aid duties.
- Ensuring that adequate equipment and facilities are provided for the academy site.
- Ensuring that first aid provision for staff does not fall below the required standard and that provision for students and others complies with the relevant legislation and guidance.

The Head of School is responsible for:

- The development and implementation of this policy and its related procedures.
- Ensuring that all staff and parents are made aware of the academy's policy and arrangements regarding first aid.
- Ensuring that all staff are aware of the locations of first aid equipment and how it can be accessed, particularly in the case of an emergency.
- Ensuring that all students and staff are aware of the identities of the academy first aiders and how to contact them if necessary.
- Ensuring that the school has an appointed person to take charge of first-aid arrangements.

Staff are responsible for:

- Ensuring that they have sufficient awareness of this policy and the outlined procedures, including making sure that they know who to contact in the event of any illness, accident or injury.
- Endeavouring at all times to secure the welfare of the students at the academy.
- Making students aware of the procedures to follow in the event of illness, accident or injury.

First aid staff are responsible for:

- Completing and renewing training as dictated by the governing board.
- Ensuring that they are comfortable and confident in administering first aid.
- Ensuring that they are fully aware of the content of this policy and any procedures for administering first aid, including emergency procedures.
- Keeping up to date with government guidance relating to first aid in schools.

The Business Manager is responsible for:

- Overseeing the school's first-aid arrangements.
- Information for all employees giving details of first-aid arrangements.

The academy will appoint a person to oversee first aid provision. The appointed person should be trained in emergency procedures as outlined below. The appointed person is the Medical Officer.

The appointed person is responsible for:

- Taking charge when someone is injured or becomes ill.
- Ensuring that an ambulance or other professional medical help is summoned when appropriate.
- Partaking in emergency first aid training, and refresher training where appropriate, to ensure they have knowledge of:
 - What to do in an emergency.
 - Cardiopulmonary resuscitation.
 - First aid for the unconscious casualty.
 - First aid for the wounded or bleeding.
 - Maintaining injury and illness records as required.
- All documentation of treating injuries, accidents and illness
- Ensuring that the school has:
 - Suitably stocked first-aid kits.
 - Suitably stocked burns kits
 - Deployable AED's
 - In date emergency Adrenaline Auto Injectors and emergency Inhalers

The location of AAI's and Inhalers can be found on the Google document shared with all staff.

First aid provision

The academy will routinely re-evaluate its first aid arrangements, at least annually, to ensure that these arrangements continue to be appropriate for hazards and risks on the academy premises, the size of the academy, the needs of any vulnerable individuals onsite, and the nature and distribution of students and staff throughout the academy.

The academy will have suitably stocked first aid boxes in line with the assessment of needs. Where there is no special risk identified in the assessment of needs, the academy will maintain the following minimum provision of first aid items:

- A leaflet giving general advice on first aid
- 20 individually wrapped sterile adhesive dressings, of assorted sizes
- 2 sterile eye pads
- 4 individually wrapped triangular bandages, preferably sterile
- 6 medium-sized (approximately 12cm x 12cm) individually wrapped sterile unmedicated wound dressings
- 2 large-sized (approximately 18cm x 18cm) individually wrapped sterile unmedicated wound dressings
- 2 pair of disposable gloves
- 10 cleansing wipes

All first aid containers will be identified by a white cross on a green background.

The Medical Officer will routinely examine the contents of first aid boxes – these will be frequently checked and restocked as soon as possible after use. Items will be safely discarded after the expiry date has passed.

First aid boxes are located throughout school.

First aiders

The main duties of first aiders will be to administer immediate first aid to students, staff or visitors, and to ensure that an ambulance or other professional medical help is called when necessary.

The academy will ensure that all first aiders hold a valid certificate of competence issued by an HSE-approved organisation and that retesting of competence is arranged for first aiders within the academy before certificates expire.

The academy will be mindful that many standard first aid at work training courses do not include resuscitation procedures for children, and will consequently ensure that appropriate training is secured for first-aid personnel where this has not already been obtained.

First aiders will ensure that their first aid certificates are kept up-to-date through liaison with the Medical Officer. The Medical Officer will be responsible for ensuring all first aid kits are properly stocked and maintained.

First aid notices will be clearly displayed throughout the academy with information on the names and locations of first aiders to ensure that students and staff know who they must contact in the event of illness or injury.

The current first aid appointed person(s) can be found on the Google document shared with all staff.

The academy will ensure that there is always a sufficient number of first-aid personnel available on site at all times to provide adequate cover to all areas of the academy.

All staff members will be made aware that agreeing to become a first aider for the academy is strictly on a voluntary basis and that they should never feel pressured to take on this role.

When selecting first aiders, the academy will follow the criteria laid out in government guidance, considering the individual's:

- Reliability and communication skills.
- Aptitude and ability to absorb new knowledge and learn new skills.
- Ability to cope with stressful and physically demanding emergency procedures.
- Normal duties – a first aider must be able to leave to go immediately to an emergency.

The academy will ensure that first aid training courses cover mental health in order to help them recognise the warning signs of mental ill health and to help them develop the skills required to approach and support someone, while keeping themselves safe. Students will be supported in accordance with the school's Mental Health & Wellbeing Policy.

Automated external defibrillators (AEDs)

The Academy has 3 AEDs which are located:

- 1) Reception building Sick Bay, unlocked, alarmed cabinet
- 2) External wall of deliveries/back of canteen entrance - C159X
- 3) External wall of lettings entrance - C159X

Where the use of the AED is required, individuals will follow the step-by-step instructions displayed on the device.

Accommodation

The school's first aid room will be suitable to use as and when it is needed, and any additional medical accommodation will be available in accordance with the school's first aid needs assessment.

The first aid room will be used to enable the medical examination and treatment of students and for the short-term care of sick or injured students. The first aid room includes a wash basin and is situated near a toilet.

The first aid room will not be used for teaching purposes.

The first aid room will:

- Have washable surfaces and adequate heating, ventilation and lighting.
- Be kept clean, tidy, accessible and available for use at all times when employees are at work.
- Have a sink with hot and cold running water.
- Be positioned as near as possible to a point of access for transport to hospital.
- Display a notice on the door which advises the names, locations and, if appropriate, the contact details of first aiders.

Emergency procedures

If an incident, illness or injury occurs, the member of staff in charge will assess the situation and decide on the appropriate course of action, which may involve calling for an ambulance immediately and/or calling for a first aider.

If called, a first aider will assess the situation and take charge of first aider administration. If the first aider does not consider that they can adequately deal with the presenting condition by the administration of first aid, then they will arrange for the injured person to access appropriate medical treatment without delay.

Where an initial assessment by the first aider indicates a moderate to serious injury has been sustained, or the individual has become seriously unwell, a responding staff member will call 999 immediately.

Where necessary, a trained staff member will administer emergency help and first aid to all injured persons. The purpose of this is to keep the victim alive and, if possible, comfortable, before professional medical help arrives. In some situations, immediate action can prevent the accident from becoming increasingly serious, or from involving more victims.

Where the seriously injured or unwell individual is a student, the following process will be followed:

- A responding staff member calls 999 immediately and follows the instructions of the operator – this may include the administering of emergency first aid.
- Where an ambulance is required, a staff member accompanies the student in the ambulance and calls the student's parent as soon as possible to inform them of the course of action taken. The staff member remains with the student at the hospital until a parent arrives.
- Where an ambulance is not required, but medical attention is needed, parents are contacted immediately. If parents are unable to get into school the student is taken to a hospital or doctor in a staff car, accompanied by at least **two** staff members – one of whom to drive the car, and one of whom, a first aider, to sit with the student in the back seat and attend to their medical needs. The student's parent is called as soon as possible to inform them that this course of action has been taken, and at least one of the staff members remains with the student at the hospital or doctor's office until a parent arrives.
- The academy will ensure that no further injury can result from any incidents that occur, either by making the scene of the incident safe, or (if they are fit to be moved) by removing injured persons from the scene.
- Responding staff members will see to any students who may have witnessed the incident or its aftermath and who may be worried or traumatised, despite not being directly involved. These students will be escorted from the scene of the incident and comforted. Younger or more vulnerable students may need parental support to be called immediately.

Once the above action has been taken, details of the incident will be reported promptly to:

- The Head of School.
- The parents of the student.

Reporting accidents and record keeping

In the event of incident or injury to a student, a parent will be informed as soon as practicable. In the event of a serious injury or an incident requiring emergency medical treatment, the Medical Officer will telephone the student's parents as soon as possible. Parents will be informed in writing of any injury to the head, whether minor or major, and be given guidance on the action to take if symptoms develop.

A list of emergency contacts is available on Arbor.

The Medical Officer will ensure that records are kept of any injuries, accidents or illnesses, as well as any first aid treatment that is given (both on paper and on the academy's MIS) and – this will include:

- The date, time and place of the incident.
- The name and class of the injured or ill person.
- Details of the injury or illness and what first aid was given.
- What happened to the person immediately afterwards, e.g. whether they were sent home or went back to class.
- Name of the first aider or person dealing with the incident.

The Business & Finance Manager will ensure that any injury or accident that must be reported to the HSE or LA under RIDDOR obligations is reported in a timely and detailed manner.

All records will be filed and stored in line with the Records Management Policy.

Offsite visits and events

Before undertaking any offsite visits or events, the teacher organising the trip or event will assess the level of first aid provision required by undertaking a suitable and sufficient risk assessment of the visit or event and the persons involved. The Medical Officer will complete checks/risk assessments for all offsite visits.

The school will take a first aid kit and emergency AAI and Inhaler kit if required on all offsite visits.

Additionally, the school will ensure that all large vehicles and minibuses have a first aid box readily available and in good condition.

For more information about the academy's educational visit requirements, please see the Educational Visits and School Trips Policy.

Storage of medication

Medicines will be stored securely and appropriately in accordance with individual product instructions, save where individual students have been given responsibility for keeping such equipment with them. Medicines will be stored in the original container in which they were dispensed, together with the prescriber's instructions for administration, and properly labelled, showing the name of the patient, the date of prescription and the date of expiry of the medicine.

Medicine brought in by students will be returned to their parents for safe disposal when they are no longer required or have expired.

An emergency supply of medication will be available for students with medical conditions that require regular medication or potentially lifesaving equipment, e.g. an EpiPen.

Parents will advise the academy when a child has a chronic medical condition or severe allergy so that a health care plan can be implemented and staff can be trained to deal with any emergency in an appropriate way. Examples of this include epilepsy, diabetes and anaphylaxis. A disclaimer will be signed by the parents in this regard.

Students will have any medication stored and, where appropriate administered, in accordance with their health care plan.

Illnesses and allergies

When a student becomes ill during the academy day, their parent will be contacted and asked to pick their child up as soon as possible.

A quiet area will be set aside for withdrawal and for students to rest while they wait for their parent to pick them up (reception building sick bay). Students will be monitored during this time.

The school will manage any emergencies relating to illnesses and allergies in accordance with the [Emergency procedures](#) section of this policy.

Consent

Parents will be asked to complete and sign a medical consent form when their child is admitted to the academy, which includes emergency numbers, alongside details of allergies and chronic conditions – these forms will be updated regularly.

Staff do not act 'in loco parentis' in making medical decisions as this has no basis in law. Staff will always aim to act and respond to accidents and illnesses based on what is reasonable under the circumstances and will always act in good faith while having the best interests of the student in mind.

Monitoring and review

This policy was updated in June 2026 by the Welfare Officer and Vice Principal – Behaviour and Attitudes. This policy will be reviewed annually by the governing board, and any changes communicated to all members of staff.

Staff will be required to familiarise themselves with this policy as part of their induction programme. Staff will be informed of the arrangements that have been made in connection with the provision of first aid, including the location of equipment, facilities and personnel.

This policy was reviewed by the VP: Behaviour & Attitudes.

The next scheduled review date for this policy is May 2027
